*Sierra gave an introduction on East Kentucky STRONG.*

Sierra is an admissions counselor at University of Pikeville. Sandy Brown is the Library Media Specialist at Belfry High School. Also, absent from the presentation was Marybeth Stiltner an Instructional Supervisor with the Pike County Board of Education.

Sierra gave an introduction on East Kentucky STRONG , highlighting that this organization wants to transform the image for women from rural Eastern Kentucky . STRONG is an acronym for what we believe

the young women of Eastern Kentucky should be , can be, and will be with guidance, opportunity, and community support. **Smart - Team Player - Respect - Optimistic -Noble - Gift.**

(Sandy ) A brief background on an exciting project underway in Pike County. For the past two years twenty-five Belfry High School 11th grade girls has attended a conference two hours away- Upon returning from the conference last year I spoke with my principal Mark Gannon concerning the possibility of having a similar conference in Pike County. With much enthusiasm we started exploring the possibilities. An initial planning

committee was selected to reach out to community members and partners who have a shared interest in the young women of Eastern Kentucky. We want to make everyone aware of what Eastern Kentucky STRONG is and what we represent. The purpose of this event is to target 11th grade girls with the specific purpose of inspiring and challenging them to embrace their strengths and to reach their full potential. The event will be a one day conference in October @ East Kentucky Expo with break out sessions directed toward specific needs of young women in Eastern Kentucky and a motivational speaker. Eastern Kentucky STRONG will recognize women in Eastern Kentucky who have achieved both personal and professional success. This conference will allow the 11th grade girls an opportunity to connect with and learn from female business leaders within their own community.

Sierra, Marybeth and I feel these young women are our daughters, neighbors, and our future.

**Ray's Rib— The SATNAV**

Two guys were in one's care and he says "I HAVE A LITTLE Satnav, it sits there in my car. A Satnav is a driver's friend, it tell you where you are. "

His friend says, "I have a little Satnav, I've had it all my life. It's better than the normal ones, my Satnav is my wife."

It gives me full instructions, especially how to drive. "It's sixty k's an hour", it says, "You're doing sixty five." It tells when to stop and start, and when to use the brake And tells me that it's never ever, safe to overtake

It tells me when a light is red, and when it goes to green.

It seems to know instinctively, just when to intervene.

It lists the vehicles just in front, and all those to the rear

And taking this into account, it specifies my gear.

I'm sure no other driver, has so helpful a device

For when we leave and lock the care, it still gives its advice.

It fills me up with counseling, each journey's pretty fraught.

So why don't I exchange it and get a quieter sort?

Ah, well you see, it cleans the house, makes sure I'm properly fed.

It washes all my shirts and things, and keeps me warm in bed!

Despite all these advantages, and my tendency to scoff, I only wish that now and then, I could turn the darn thing off.
